AFFIDAVIT of
Special Agent Brian Snedeker
Drug Enforcement Administration
Bristol, Virginia

1. I, Special Agent Brian Snedeker, being duly sworn hereby depose and say:
2. The purpose of this application and affidavit is to secure a search warrant for a 1996, green, Chevrolet pickup registered to Robert John Nash, displaying Virginia license plates "MARDUK", and having Vehicle Identification Number 2GCEK19R7T1189875. This affiant, after obtaining and reviewing information, believes there is evidence of conspiracy to manufacture methamphetamine and/or manufacturing methamphetamine in the above listed 1996, green, Chevrolet pickup in violation of 21 USC 846/841(a)(1) and 841(a)(1).
3. I am a Special Agent with the Drug Enforcement Administration (DEA) and have been so employed for approximately (24) years. During my employment I have received comprehensive classroom training from the Drug Enforcement Administration in specialized narcotic investigative matters including but not limited to drug interdiction, drug detection, money laundering techniques and schemes, smuggling, and the investigation of individuals and organizations involving the smuggling, cultivation, manufacturing, and illicit trafficking of controlled substances and controlled substance precursors. I am a graduate of both the DEA's Clandestine Laboratory Investigation/Safety Certification Program and the DEA's Clandestine Laboratory Site Safety Officer School. I have participated in the execution of more than (300) narcotics related search warrants and the seizure and dismantling of more than (200) clandestine methamphetamine laboratories. I have testified as an expert on multiple occasions in Federal Court and State Court regarding the clandestine manufacturing of methamphetamine.
4. The facts set forth in this affidavit are known to me as a result of my personal participation and information provided to me by other law enforcement officers regarding Robert Nash, Virginia Karecki, and Vincent Karecki.
5. The manufacturing of methamphetamine (a Schedule II Controlled Substance) by way of the ammonium nitrate/lithium metal method (also known as the "shake and bake" or "one pot" method) requires pseudoephedrine/ephedrine (obtained through the processing of cold/allergy pills, tablets, gelcaps, and liquids containing pseudoephedrine or ephedrine), ammonium nitrate (found in instant cold packs), and lithium metal (found in lithium batteries). Other chemicals/ingredients commonly used during the ammonium nitrate/lithium metal method include sodium hydroxide (e.g. Red Devil Lye), petroleum ether/petroleum naphtha/white gas (e.g. Coleman Fuel, lighter fluid), acetone, muriatic acid, sulfuric acid, table salt, and aluminum foil. Equipment/tools commonly used during the manufacturing of methamphetamine include soda bottles, glass mason jars, plastic food storage containers, plastic tubing, electrical tape and/or duct tape, coffee filters, pipe cutters (often used to open lithium batteries), Ziplock-type plastic bags, frying pans/electric skillets/propane burners (to dry the methamphetamine), razor blades, digital scales, funnels, and stirring utensils.

6. Individuals who manufacture methamphetamine usually use and sell/trade the methamphetamine they manufacture. These manufacturers routinely have other persons (hereafter referred to as “shoppers”) assist them in the purchasing of precursors, chemicals, and equipment/supplies needed to manufacture methamphetamine. Manufacturers will regularly pay shoppers in methamphetamine (to use and sell) and/or cash for their assistance.
7. During December 2014, law enforcement received a citizen complaint regarding the suspected manufacturing of methamphetamine at the residence (former residence) of Robert Nash. The complainant advised that there was “fog” pouring out of an upstairs window of the residence when it was open.
8. During late November 2015, methamphetamine was seized from an individual in Washington County, VA during the course of a traffic stop. The individual advised that he/she had obtained the methamphetamine from Virginia Karecki and claimed that Virginia and Vincent Karecki obtained methamphetamine from Robert Nash. The individual further advised that the Kareckis supplied Robert Nash with pseudoephedrine in exchange for methamphetamine. The individual stated that Nash manufactured methamphetamine in the garage of a townhouse in the vicinity of Bonham Road in Bristol, VA. Law enforcement subsequently utilized the individual’s description of the aforementioned townhouse to locate and identify Nash’s residence located at 17 Heritage Drive, Unit 13, Bristol, VA. The individual admitted having observed Nash manufacture methamphetamine.
9. This affiant recently reviewed pseudoephedrine sales data provided by a number of retailers (as required under The Combat Methamphetamine Epidemic Act of 2005) and instant cold pack sales data provided by retailers who maintain such data and noted the following information:

 - On 01-02-2016, Robert Nash purchased a (10) day supply of pseudoephedrine.
10. Pseudoephedrine is a key precursor in the manufacturing of methamphetamine via the ammonium nitrate/lithium metal method. During the last several years, this affiant has routinely found and seized (via search warrants and consent searches) pseudoephedrine at methamphetamine manufacturing/precursor preparation sites. This affiant has encountered and seized pseudoephedrine at such sites in various forms/stages (e.g. sludges/mixed with liquids) related to methamphetamine production and contained in a variety of glass and plastic containers days, weeks, and even months after the pseudoephedrine was purchased at pharmacies/retail stores.
 11. A review (by this affiant) of Robert Nash's criminal history revealed his 2005 misdemeanor conviction for possession of marijuana. Nash was arrested in Washington County, VA on December 18, 2015 and charged with possession of methamphetamine. Nash is currently out on bond.
 12. This affiant is aware based on his training, experience, and conversations with other law enforcement officers that individuals who illegally manufacture methamphetamine and/or conspire to do so typically maintain methamphetamine manufacturing precursors/chemicals/equipment (as described in paragraph #5 above) along with receipts / notes / records / telephone numbers (as they pertain to manufacturing/conspiracy to manufacture), and other items as listed and explained on Attachment B (of the Application and Affidavit for Search Warrant to which this affidavit is attached) on their persons, inside their residences, garages,

outbuildings/barns, campers, vehicles (or the vehicles they operate), and inside of vehicles registered to other persons when those vehicles are parked at the manufacturer's/conspirator's residence/property.

13. Robert Nash's 1996, green, Chevrolet pickup is routinely observed in Bristol, VA and Washington County, VA (both locations are within the Western District of Virginia).
14. Based upon the facts set forth above, I believe that there is probable cause for the issuance of a search warrant for the 1996, green, Chevrolet pickup registered to Robert John Nash, displaying Virginia license plates "MARDUK", and having Vehicle Identification Number 2GCEK19R7T1189875 as there is probable cause to believe that there is evidence of a violation of 21 USC 846/841(a)(1) and/or 841(a)(1) in said vehicle.
